

OSLO SERIES  
Cast Aluminum Clamshell Base

OL12CA

EUROTIQUE®  
Architectural Lighting

**CONSTRUCTION**

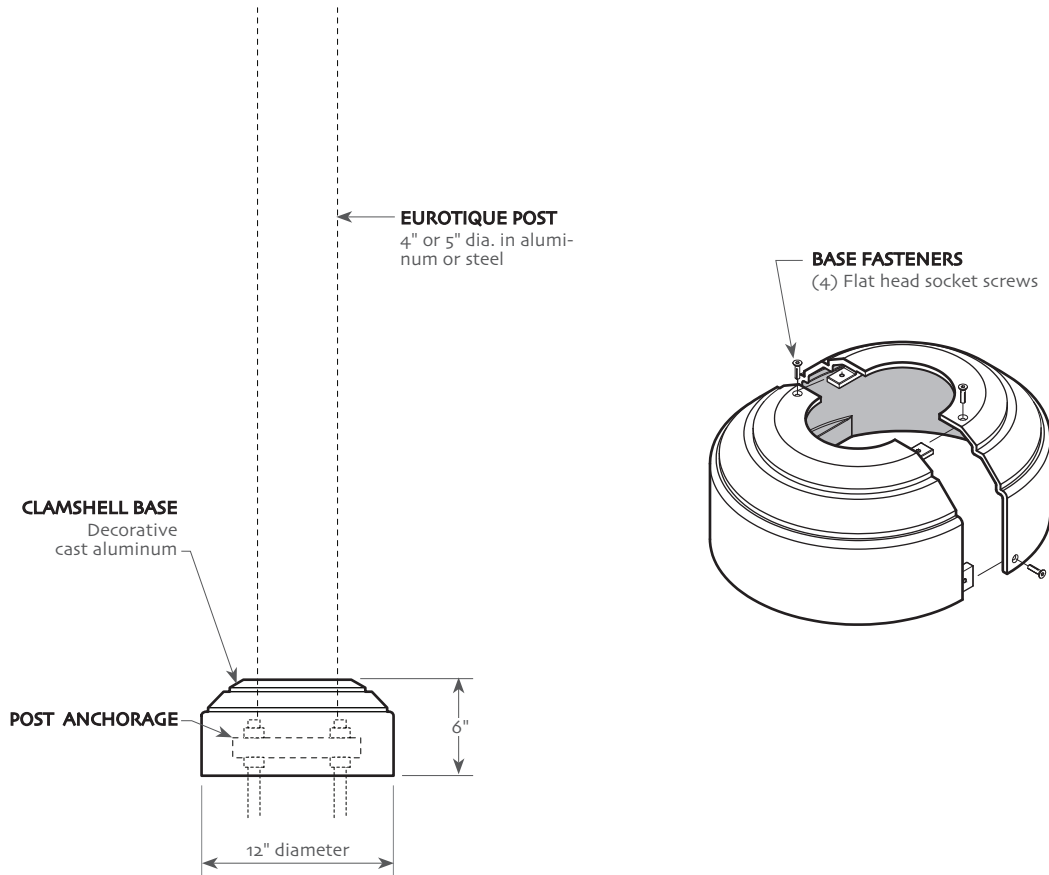

The decorative clamshell (two-piece) base is high quality cast aluminum. Base is designed for use with 4" or 5" diameter, aluminum or steel, Eurotique posts. All hardware is tamper resistant stainless steel.

**INSTALLATION**

The clamshell base halves are secured together, around the post and anchor plates, with (4) flat head socket screws. See Eurotique 4" and 5" steel and aluminum post specifications for post installation details.

**FINISH**

The clamshell base has a powder coat finish utilizing a premium TGIC polyester powder. The finish is a three-stage process that consists of drying, powder application and curing. Before coating, the parts are treated with a five-stage pretreatment process, consisting of a heated alkaline cleaner, rinse, phosphate coating, rinse and sealant.

Note: See Eurotique post specifications for the aluminum and steel, 4" and 5" shafts, pages EP-1, EP-3, EP-7 and EP-9.

**ORDERING GUIDE**
